Forecast for Thursday 14 Apr 2022

Weather: Mostly dry overnight and on Thursday. Extensive mist and low cloud with the odd patch of drizzle, mostly lifting and dispersing during morning, then some bright or sunny spells developing.

Chance of cloud-free hill tops above 800m: 40% improving 80% during morning.

Low Cloud and visibility: Extensive cloud cover well down the hills overnight and into Thursday morning with poor visibility. Low cloud will tend to lift and disperse during morning with visibility becoming mostly good. There will still be a canopy of higher cloud remaining, mostly above the tops.

Met Office Aberdeen Meteorologist's View
Note, even with lighter winds, it will still feel cold over higher ridges/summits with temperatures of only 4 to 6 Celsius.

Forecast for Friday 15 Apr 2022

Weather: A dry day and becoming warm at lower levels. Some mist and fog patches in the glens at first soon dispersing, otherwise bright with sunny spells. Mist and low cloud edging in from the North Sea to more eastern hills during evening.

Maximum wind: Southerly winds with average speeds on the tops of 15 to 20mph.

Chance of cloud-free hill tops above 800m: 80%

Low Cloud and visibility: Some patches of mist and cloud at lower levels, soon dispersing. Otherwise good visibility with clouds well broken around 800 to 900m. Patches of poor visibility and low cloud arriving in east of area during evening.

Temperature: **Glens:** Plus 5 Celsius rising to 16 Celsius.
At 800m: Plus 8 Celsius.
Freezing level: Well above the tops.
